Ankit Meena

Senior Analyst · Python Full Stack Developer

ankitm.uidev@gmail.com +91 7674988775 Mumbai, Maharashtra, India https://github.com/ankitm10039
https://www.linkedin.com/in/ankit-fullstack-dev https://ankitm10039.github.io/portfolio-website

Profile Summary

Full Stack Engineer with 6 years of experience designing, building and maintaining scalable web applications across the full SDLC. Strong backend expertise in Python, FastAPI and Flask — REST APIs, Pydantic validation, SQLAlchemy and Pytest — and deep frontend expertise in Vue.js, React and Next.js with TypeScript. Recently built a multi-cloud control assessment and governance platform (AWS, Azure, GCP), a FinOps Command Center for multi-cloud cost analytics and an Azure AD SSO-based reimbursement portal. Experienced with PostgreSQL, MS SQL Server and MongoDB, Docker, Azure and AWS, LLM integration, Agile/Scrum, and AI-assisted development tools.

Experience

Pibythree Consulting Pvt Ltd — Senior Analyst 06/2025 – Present

Eminence Infotech — Web Developer 11/2024 – 05/2025

Chetu India Pvt Ltd — Web Developer 03/2023 – 11/2024

Coding Age Pvt Ltd — Web Developer 01/2023 – 03/2023

Dollop Infotech Pvt Ltd — Web Developer 10/2020 – 12/2022

Technical Skills

Languages

Python, TypeScript, JavaScript, SQL, HTML, CSS

Backend

FastAPI, Pydantic, SQLAlchemy, Flask, Node.js, Express.js, RESTful APIs, GraphQL, Microservices

Frontend

Vue.js 3, Nuxt.js, Pinia, Vuex, Vuetify, Quasar, PrimeVue, React.js, Next.js, Redux, Tailwind CSS

Auth & Security

Azure AD SSO (MSAL), JWT, RBAC, Cloud Security Posture, CEL Rule Engine, pip-audit, Trivy

Databases

PostgreSQL, MS SQL Server, MongoDB, MySQL, SQLite

Cloud & DevOps

Azure, AWS, GCP (BigQuery), Docker, Docker Compose, CI/CD, Jenkins, GitLab CI, Git, Bitbucket

AI & Data

LLM Integration, Gemini API, GitHub Copilot, ChatGPT, Claude, Dataiku

Testing & Process

Pytest, Postman, Code Reviews, Debugging, Performance Optimization, Agile/Scrum, JIRA

Education

Bachelor of Computer Applications (BCA) — Maharishi Mahesh Yogi Vedic Vishwavidyalaya, Jabalpur 2022 · 74%

Higher Secondary — Ankur Higher Secondary School, Madhya Pradesh 2018 · 60%

Secondary (10th) — Genius Higher Secondary School, Jaora 2016 · 68%

Certificates

- **AWS Certified Cloud Practitioner (CLF-C02)** — Amazon Web Services
- **APM & Distributed Tracing Fundamentals** — Datadog

Languages

Hindi, English

Projects

CloudControl — Multi-Cloud Control Assessment & Governance Platform

A multi-cloud governance platform that scans AWS, Azure and GCP accounts and evaluates every resource against a declarative control library using a CEL rule engine, with hashed evidence snapshots, control scoring and PDF assessment reports.

Tech Stack: FastAPI, SQLAlchemy, Pydantic, PostgreSQL, Vue 3, TypeScript, Pinia, Tailwind CSS, Vite, boto3, Azure SDK, Google Cloud SDK, CEL, ReportLab, Pytest, Docker Compose

FinOps Command Center

A FinOps product on AWS Marketplace that gives one view of cloud spend across AWS and GCP, with cost dashboards, savings recommendations and a Gemini-powered chatbot. Signup and login are restricted to work email domains.

Tech Stack: React 18, Tailwind CSS, DaisyUI, Highcharts, Recharts, Python, Flask, boto3, Google BigQuery, Gemini API, Docker, AWS CloudFormation

Reimbursement Portal — Employee Expense Claims & Approval System

An internal expense-claims portal with Azure AD SSO and role-based approvals, where employees submit claims with receipts, managers verify them and finance approves and disburses.

Tech Stack: Vue 3, TypeScript, Vuetify, Pinia, Vite, ECharts, Chart.js, PDF.js, FastAPI, PostgreSQL, Azure AD (MSAL), AWS S3

ICAssist · Financial Insights — AI Chatbot for Company Financial Reports

An AI-powered chatbot that streamlines corporate data retrieval. Users ask complex questions in natural language and instantly get precise financial and operational insights from a company's quarterly and annual reports.

Tech Stack: Next.js, Python, Flask, REST APIs, LLM Integration, Dataiku, Azure, AWS, Bitbucket, CI/CD

AutoLit — Healthcare Reporting & Analytics Platform

A data reporting platform for the healthcare sector that generates customised reports by therapeutic area and medical condition, and delivers them on a daily, weekly or monthly schedule by email.

Tech Stack: Next.js, TypeScript, Python, Flask, Dataiku, LLM Integration, AWS, Azure, Bitbucket

ItServiceDesk — Internal IT Service Desk & Asset Management

An internal IT administration suite with automated ticketing, asset inventory management, UAT tracking and automated email notifications via SMTP.

Tech Stack: Next.js, React.js, Python, SSO, SSR, PostgreSQL, AWS, SMTP

Cough Drop — Augmentative & Alternative Communication (AAC) Software

Open-source AAC software that helps individuals with complex communication needs be heard through adaptable technology, including eye-gaze support.

Tech Stack: Next.js, Redux Toolkit, TypeScript, Python, Flask, AI/ML, LLM Integration, Eye Gaze, Google Maps API, Payment Gateway

Ordant — Cloud Platform for Print Businesses

A cloud-based platform for managing print businesses, with customisable modules that replace disconnected data silos and streamline operations from start to finish.

Tech Stack: Vue.js, Pinia, TypeScript, Tailwind CSS, Node.js, PostgreSQL, AWS

POS System — Point-of-Sale Platform

A point-of-sale system combining hardware and software for in-person and online sales, payment processing and direct bank routing.

Tech Stack: Vue.js, Quasar, TypeScript, JavaScript, Node.js, Express.js, Payment Gateway, Azure, AWS

Park Smart — Parking Management Solution

A parking management solution that helps parking facilities adopt sustainable strategies, complementing LEED and other certifications.

Tech Stack: Vue.js, Quasar, Pinia, Node.js, PostgreSQL, Google Maps, Payment Gateway, AWS, Azure

Social Angel — Donor & Volunteer Community Platform

A community platform that unites donors and volunteers globally to support essential resources and lasting change.

Tech Stack: Vue.js, Vuetify, Vuex, Tailwind CSS, Python, PostgreSQL, ERP, Stripe

Lyvup — Digital Therapy Platform

A digital therapy platform for accessible, affordable healthcare that lets patients receive personalised care from home and improves treatment adherence.

Tech Stack: React, Redux, Bootstrap, Node.js, Express.js, MySQL, AWS, Payment Gateway, Google Maps

School Dash — School Administration System

Streamlines administrative work for educational institutions, covering enrollment, attendance tracking and grading.

Tech Stack: React.js, Redux, Material UI, Node.js, Express.js, MongoDB
